Introduction

The O’Rahilly was born Michael Joseph Rahilly in Ballylongford, Co. Kerry, in 1875. The son of a wealthy shopkeeper, Richard Rahilly, The O’Rahilly attended Clongowes Wood College. In 1899 he married Nannie Brown, an American, and sold the family business. The O’Rahilly subsequently spent some time living in America before finally returning to Ireland in 1909. Upon his return The O’Rahilly became actively involved in the Gaelic League and Sinn Féin contributing to both *An Claidreamh Soluis* and *Sinn Féin*. He played an active part in the foundation of the Irish Volunteers and subsequently served as the treasurer of the organisation. In 1916, despite having no prior knowledge of events, The O’Rahilly joined the Volunteers in the General Post Office once the Rising had begun and was killed in an ill-fated charge up Moore Street on the 28 April.

The collection was deposited by his son Aodogán in February 1991 and contains material relating to all aspects of The O’Rahilly’s life. The O’Rahilly travelled (without his wife) a great deal, especially in America where business trips took him all over the country. Letters written by The O’Rahilly to Nannie while travelling are included in the collection and they provide an insight into both the character and temperament of The O’Rahilly, and the development of the United States at the beginning of the twentieth century. The O’Rahilly family lived at a number of different addresses between 1899 and 1909. After his marriage The O’Rahilly went to America and lived in New Jersey, New York and Philadelphia (Nannie also spent some time in Florida after the birth of her first son Robert). The O’Rahillys returned to Ireland in 1902 but moved back to America in 1905 residing at ‘Slieve Luachra’, Lansdowne, near Philadelphia, until 1909. Despite signing a five year agreement for a house at No.2 Herbert Road, The O’Rahilly subsequently lived at No.40 Herbert Road until his death (the family also owning a cottage in Ventry, Co. Kerry).

It was only after his return from America in 1909 that Michael Joseph began to consistently refer to himself as ‘The O’Rahilly’ (replacing the ‘O’ which had been dropped from the family name generations earlier). However in the interests of clarity (as both his uncle and grandfather were also Michael Joseph Rahilly) I have referred to him as ‘The O’Rahilly’ or ‘Rahilly’ throughout the list.

The O’Rahilly had a great interest in scholarly and antiquarian matters and a great deal of correspondence and notes of this nature are included in the collection, the majority dealing with his genealogical research into his own family. Many letters (mostly of a routine business nature) include notes and scribbles made by The O’Rahilly on the reverse, most relating to his attempts to learn the Irish language.

The collection contains material and correspondence (mostly in Irish) relating to the Gaelic League and other interests and preoccupations of The O’Rahilly such as his design of Irish-language chequebooks and his dispute with the Post Office over their attitude to letters addressed in Irish. There is also a small amount of material relating to the opposition organised to the visit of George V to Dublin in 1911. The collection also includes much valuable information on the Irish Volunteers and in particular the arming of the organisation (The O’Rahilly playing a major part in the Howth gun-running of July 1914). However, very little original material relating to the Rising is present although

transcripts and copies (made by Aodogán) of notes written by The O’Rahilly while in the G.P.O. are included.

The collection also contains the research carried out by Aodogán for the biography he wrote of his father entitled *Winding the Clock—O’Rahilly and the 1916 Rising* (Dublin, 1991). Particular attention should be paid to Section D III which contains copies and transcripts of material, dealing with all aspects of The O’Rahilly’s life, the Irish Volunteers and the Rising, which is not present in the collection in its original form. It should also be noted that some of the original material has been annotated by Aodogán.

The collection does not only contain material relating to The O’Rahilly’s life, his wife, father, uncles and grandfather are also represented in the collection. In particular there are a number of letters written from The O’Rahilly’s uncle Michael Joseph while serving as a doctor on British warships in the Caribbean and further north along the American coast. These letters contain valuable information relating to life on board a British warship in the 1860’s.

The collection has been divided into four sections, arranged by person. Section A deals with material relating to The O’Rahilly’s father, uncles and grandfather, sections B, C, and D dealing with The O’Rahilly, his wife Nannie and his son Aodogán respectively. Within these main divisions the material has been arranged along subject matter and chronological lines. Printed matter had been placed in a separate unit in each section and all later copies and transcripts are placed within section D. The collection provides a valuable insight into the various aspects of the Irish Nationalist movement in the early twentieth century and in particular into the life of one of its most enthusiastic and unheralded participants.

Michael provides information on the effects of yellow fever on the expeditionary force. His ship managed to avoid it but he writes that French and Spanish ships and one British frigate succumbed to the disease, the whole crew of the French ship dying as a result. Michael describes the disembarkation of French troops (the men being sent to shore from the battleship in boats 'shaped like a horse trough' which could hold 100 men); the uniform and equipment of these troops; their attitude ('as if they were going to a parade rather than a battlefield') and their Mexican enemy (26,000 men in arms 'determined to fight the French to the last'). (Also encountered a smaller Baltimore clipper). Michael provides details on life on board ship—he had to deal with one case of smallpox in Halifax but it didn't spread; has eaten shark and porpoise ('the liver very like pig's liver'); learned chess and backgammon; and read novels (Jane Austen, *Wuthering Heights*). 4pp.

- 355** 4 March 1916 Annotated typed letter from The O'Rahilly discussing the expenditure of the Irish Volunteers (with particular reference to arms) in which he expresses dissatisfaction with the way the organisation is being run; feels that his opinion as Treasurer is being ignored when it comes to expenditure; objects to money which was traditionally spent on arms being used for other purposes (The document is in very poor condition, the pages torn and the text faded). 2pp.
