

## **What: Earth Institute IWD Celebration - Gender Dimensions in Research Workshop**

When: Thursday 6<sup>th</sup> March 2025, 15.00 – 16.30

Where: Quinn School of Business (Room Q118)

Would you like to learn more about how to include gender in your research design and implementation? Research funding agencies require all proposals to identify gender dimensions in the research content, across all disciplines. UCD Earth Institute is delighted to mark International Women's Day with this celebration of gender through sharing of research case studies. The event will be opened by Professor Orla Feely, UCD President, followed by a short talk by Dr Marion Boland, Head of Research Policy at Research Ireland on the gender dimension of research content: a Research Ireland funding and policy context. We will then explore case studies from UCD researchers who have successfully incorporated research into their projects, and invite all researchers to consider potential directions to uncover gender dimensions of their own research.

[Register here.](#)

### **Programme**

1. UCD President Prof Orla Feely, Opening/Welcome remarks (5 minutes)
2. Dr Marion Boland, Head of Research Policy, Research Ireland: Gender dimension of research content, a Research Ireland funding and policy context (10 minutes)
3. UCD Case Studies 5 minutes each
  - a. Case 1: Gender Dimensions of Energy Policy using Natural Language Processing, Prof Eleni Mangina (School of Computer Science) /Assoc Prof Paula Carroll (School of Business)
  - b. Case 2: Implementing the BioBeo Gender Action Plan through Events and Learning Resources, Prof Tom Curran (School of Biosystems and Food Engineering)
  - c. Case 3: It is time to talk about sex in biomedicine, Prof Dimitrios Zevgolis (School of Mechanical and Materials Engineering)
  - d. Case 4: WECOADAPT, Integrating Gender Equity in co-design labs for Urban Climate Change Adaptation, Dr Louise Dunne/ Ronja Walter (UCD Environmental Policy Centre)
  - e. Case 5: Gender Aspects of Ireland's Clean Energy Transition, Dr Dervla MacManus (School of Philosophy)
  - f. Case 6: Woman or Master? Challenging gender stereotypes through the combined strengths of Archaeology, History and Science, Dr Anita Radini (School of Archaeology)
4. Moderated brainstorming/breakout groups to identify potential opportunities in own research (20 minutes).
5. Wrap up/next steps
