GOAD MAPS

From 1885 the firm of Charles E. Goad produced fire insurance plans for the commercial areas of more than 100 towns in Britain and Ireland. These plans which showed details regarding access to water, routes to building, room arrangements, locations of doors & windows, thickness of walls, information on construction materials, type of roof, locations of combustible materials, were used by fire insurance companies and fire fighters.

MILITARY MAPS – GSGS 3906

These military maps were reproduced in the 1940s in Great Britain by the War Office at a scale of 1:25,000 but derived from 1:10,560 county maps published between 1895-1918. Most sheets are composites of four six-inch maps, photographically reduced with the contours overprinted.

A high-quality index for this series can be viewed and downloaded at:
