

Mentoring at UCD

Choosing a mentor is a very important step in the process of preparing for mentoring. Take a look at the guidance on our [web page](#) for some tips on how to get started.

Below you will find a list of UCD colleagues who have attended Mentor Training at UCD. The list will be added to over time, and is not intended to be an exhaustive list of possible mentors. Note that some may already have committed to another mentoring partnership or may be unavailable for specific periods of time. If you have another colleague in mind who is not on this list, you are encouraged to approach them and ask them to consider being your mentor. This will ensure that the wider UCD community benefits from more trained mentors over time.
