

# Maximising the My Learning section on Brightspace

**Switch to the New Content Experience (NCE).**

**Use a unit to introduce the module:** content to be covered, mode of delivery, learning objectives, teaching staff, assessment strategy.

**Organise learning materials coherently and consistently** (by week, topic, lecturer etc.)

**Provide a brief introduction to each new section.**

**Insert links to assessments** (either embedded within learning units, or in a separate unit).
