

Ad Astra Assistant Professor in Antimicrobial Resistance (Ref 18102)

University College Dublin's School of Veterinary Medicine is recruiting for an Ad Astra Assistant Professor in Antimicrobial Resistance (AMR). This prestigious role is an outstanding opportunity for a suitable candidate to advance their academic career within a dynamic and engaged research-intensive university.

This successful applicant will enhance our strategic One Health initiatives through innovative research in AMR, focusing on immunological research relevant to the development of vaccines, diagnostics and host-directed therapies across human and veterinary medicine.

Informal Enquiries to: Dr Alison Reynolds <mailto:alison.reynolds@ucd.ie>
