UCD School of Veterinary Medicine

"I think that a gender equal world comes through hard work from everyone. Never limit yourself, lead by example and keep pushing. Women everywhere should band together to amplify each others' voices."

My name is Amy Koterbay and I am a medical oncologist. I started working in UCD in 2017 after 6 years in private practice. I am currently a member of the Veterinary Cancer Society and the American College of Veterinary Internal Medicine. In addition to medical oncology, I have a strong interest in end of life care and strive to teach my students about the motivations for cancer treatment, in which quality of life is paramount. Outside of work, I love travel, photography and music.
