UCD School of Veterinary Medicine

“Keep gender equality on every agenda.”

I am a 1986 UCD Veterinary Graduate and spent several years working in The University of Edinburgh and The University of Glasgow where I completed both MPhil and PhD degrees on hyperthyroidism in cats. I hold a Diploma of the European College of Veterinary Internal Medicine and am both a European Specialist in Internal Medicine and an RCVS recognised Specialist in Small Animal Endocrinology. I have been President of the British Small Animal Veterinary Association and the European College of Veterinary Internal Medicine and Editor of the Journal of Small Animal Practice. I am the 2012 recipient of BSAVA's Woodrow Award in recognition of my services to small animal medicine. Currently Professor in UCD, I am also Director of the DVMS Programme. I balance clinical work, clinical research and clinical teaching and act as Section Leader helping all members to achieve their goals.
