

Louise Mooney

Senior Technical Officer

#IWD2020
#EACHFOREQUAL

UCD School of Veterinary Medicine

“My advice to help create a gender equal world is to be aware of your own assumptions and be prepared to challenge them.”

I am a senior technical officer in the Clinical Pathology section of the Veterinary Diagnostic Labs. I completed my undergraduate degree in Zoology after which I went on to do a research masters in Veterinary Parasitology. During my time as a technician in the Veterinary Diagnostics Labs I have also completed post graduate courses in Biomedical Sciences and am currently in my second year of a Masters in Business Management.
