UCD School of Veterinary Medicine

“Don’t let your gender determine your destiny. Be true to who you are.”

My name is Taylor McGrath and I am a woman. I am also strong, driven, capable and confident; all of which don't have gender. I am in the field of Veterinary Medicine and the oldest of 6 girls. I feel there is no limit to what I can accomplish based on my gender and I hope to pass that down to rising generations.
